

Andhra Pradesh + Telangana - 2,000+ Unique Named Places

District-wise master inventory with no artificial duplicate padding

2258 unique named places across 28 Andhra Pradesh districts + 33 Telangana districts

The place-level standard is deliberately broad: named tourist attractions, temples, forts, palaces, archaeological sites, beaches, rivers and lakes, forests, wildlife areas, museums, heritage settlements, craft villages and other identifiable local tourism places. Every exact normalized name is kept only once across both states.

Current administrative scope is based on 2026 state information: Andhra Pradesh has 28 districts, and Telangana has 33 districts. Telangana Tourism's current portal separately classifies temples, mosques, dargahs, heritage sites, parks, lakes, churches, museums and forts, which supports this granular inventory approach. Source and scope

Andhra Pradesh: current state/district references and district tourism / Places of Interest pages, including official district tourism pages such as Sri Potti
Sriramulu Nellore. Telangana: Government of Telangana district directory and official Telangana Tourism destination, heritage and attraction
categories. ■cite■turn882388search6■turn882388search1■turn148986search0■turn148986search4■turn148986search7■

Important: this is a compiled database-style inventory, not a government declaration that the two states jointly contain this exact number of official
tourist destinations. Smaller named local places are included so the dataset is useful for discovery and tourism-data work. Opening status, visitor
permissions, fees and local administrative boundaries can change; verify before publishing as a live booking/navigation system.
