

Karnataka: Exact Unique Tourist Places

Cleaned master list with concrete place names only

1117 unique concrete place names retained

This corrected version removes the artificial rows from the earlier 2,000-entry file, including generated “sunset viewpoint”, “entrance”, “walking trail”, “circuit”, “landscape” and similar filler entries. It also removes repeated naming variants where the same place was listed more than once.

Important: I am not labeling these 1117 names as the official Government of Karnataka destination count. The Karnataka Tourism policy identifies 319 tourism destinations statewide; the current tourism portal separately lists attractions and destination content. This document is a cleaned tourism-place inventory, not an official count.
