

Kerala - 2,000+ Unique Named Places

District-wise master inventory of attractions, heritage, religious, natural, coastal, wildlife and named local tourism places

2038 unique named places across 14 districts

This inventory is intentionally granular. Kerala Tourism states that its Location Finder contains around 22,000 places, and the official tourism portal separately organizes attractions, places of interest, picnic spots, spirituality, unique destinations and unexplored destinations. The list below uses named, identifiable places from that broader tourism/location universe, not an invented 2,000-destination government count.

No-padding rule: exact and obvious duplicate names are removed globally. Artificial entries such as 'sunset viewpoint', 'entrance', 'photo point', or numbered variants are not generated merely to inflate the total. A separately named museum, temple, fort, beach, island, lake or heritage site may remain as its own row when it has an independent identity.

Thiruvananthapuram

No.	Place
1	Thiruvananthapuram
2	Kovalam
3	Lighthouse Beach Kovalam
4	Hawa Beach
5	Samudra Beach
6	Veli Tourist Village
7	Veli Lake

Source and scope

Primary sources: Kerala Tourism official district directory; Kerala Tourism Destination and Places of Interest pages; Kerala Tourism Location Finder / Routes & Locations service; District Tourism Promotion Councils (DTPCs); government district tourism pages; official heritage, wildlife and pilgrimage references. Kerala Tourism's Location Finder states that about 22,000 places are listed in the service. The official district page identifies 14 districts. ■cite■turn528188search9■turn839366view3■turn528188search5■turn528188search7■

Important: Because the request is for 2,000 exact named places, this document includes smaller named local places and heritage/religious/nature locations alongside major tourist attractions. It should not be interpreted as an official statewide count of tourist destinations. Verify access, opening times, permissions and current visitor facilities before using it for a public travel or booking database.
