

Tamil Nadu - 2,000+ Unique Tourist Places

District-wise master inventory of named attractions, heritage sites, temples, natural places, wildlife, beaches, museums and cultural places

2122 unique named places across 38 districts

This is a granular tourism reference, not an official government claim that Tamil Nadu has exactly 2,000 destinations. The Government of Tamil Nadu currently has 38 districts, and official district tourism pages plus the Tamil Nadu Tourism and HR&CE; systems publish individual places and attractions. The inventory therefore goes down to individually named visitor sites and local tourism places rather than padding the count with artificial 'viewpoint', 'entrance' or duplicate suffixes.

Deduplication rule: every exact place name is kept only once across the whole document, ignoring capitalization and punctuation differences. A compound historic complex may retain separate rows only when the component is itself a separately named visitor site, such as a museum, temple or fort that has its own identity.
